

Minds Under Construction
In-School Student Programs

In-School Toolbox Assembly

(Grades 2-5 I 55 Minutes I On Campus)

- Fun, hands-on introduction to building & creativity.
- Encourages fine motor skills, focus & problem-solving.
- Led by an industry professional with school staff assistance.
- Each student receives a toolbox kit, tape measure & tool apron to keep.
- Flexible scheduling with your school.
- Materials donation: $7 per student

In-School Dodecahedron Build

(Middle School I 55 Minutes I On Campus)

- **Team-based** building challenge focused on STEM and soft skills.
- Emphasizes collaboration, time management & design thinking.
- Great for group work and critical thinking practice.
- Led by an industry professional with school staff assistance.
- Flexible scheduling with your school.
- Materials donation: $6 per student

In-School Meet the Builder

(Middle & HS I 55 Minutes I On Campus)

- **Focus** on residential & commercial building, introduces the various trades involved & career opportunities.
- Demonstrates how math, technology, science, & design play a role in today's building industry.
- Led by successful local builders sharing their real-life experiences.
- Flexible scheduling with your school. No fee.

SPECIAL PROGRAMS AND ACTIVITIES WILL BE ANNOUNCED AS SCHEDULED.
